Course Name:

Demystifying Shower Door Selection - Choosing the Right Product for Your Customer's Application

Course Description:

While there are several factors to consider when selecting a shower enclosure, the selection process doesn't have to be complicated. In addition to exploring different enclosure options, this program outlines the overall selection process and identifies additional areas for consideration to ensure the most successful product selection.

Course Details:

Course Number:	8647	CEU Credit:	0.10 CEU
Subject:	Design Specialties – Residential (4.7)	Length:	60 minutes
Course Type:	In-Person	Provider:	Basco Shower Enclosures
Designation:	General	Classification:	Basic

Learner Objectives:

After participating in this course, participants should be able to:

- Explain the benefits of shower doors.
- Identify common configurations and considerations for sliding & swing enclosures.
- Provide characteristics of framed, frameless and heavy glass enclosures.
- Recognize and apply steps for selecting a successful shower enclosure solution.
